PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with proven experience building scalable SaaS platforms, AI-powered products, automation systems, blockchain-enabled solutions, and enterprise-grade web applications. Strong expertise in PHP, MySQL, JavaScript, Python, Node.js, OpenAI integrations, and API development. Experienced in transforming ideas into production-ready digital products by designing complete architectures, implementing efficient workflows, and delivering measurable business outcomes. Known for rapid execution, problem-solving, and developing solutions that combine technical excellence with commercial value.

CORE TECHNICAL SKILLS

Backend: PHP, MySQL, Node.js, Python, REST APIs, Database Architecture

Frontend: JavaScript, AJAX, Responsive UI Integration, Performance Optimization

Artificial Intelligence: OpenAI API, Prompt Engineering, AI Automation, AI Workflows, Image Generation Systems

Platforms: SaaS Applications, CRM Systems, Admin Panels, Dashboards, Subscription Platforms

Payments: Stripe Integration, Lemon Squeezy, Subscription Billing Systems

Cloud & Deployment: Hosting Management, Production Deployment, Domain Configuration, Play Store Publishing

Blockchain: BNB Smart Chain, Wallet Systems, Token Ecosystems, Referral & Reward Architectures

FLAGSHIP PROJECTS

Umarae – Built a complete Crypto + SaaS ecosystem featuring wallet management, mining systems, referrals, rewards, analytics dashboards, administrative controls, and mobile deployment support.

GoroSolution – Developed an AI-powered SaaS platform for content creation, image generation, prompt engineering, subscriptions, and productivity automation.

JokeBot – Created an AI conversational platform utilizing automation pipelines and API-driven content generation systems.

AI Image Engine – Engineered a custom image optimization and transformation platform supporting advanced automation workflows.

PROFESSIONAL EXPERIENCE

Founder – Perfect+ LED (3 Years)

Managed sourcing, operations, sales, customer relationships, and B2B marketing activities.

Digital Entrepreneur

Built and scaled multiple SaaS platforms, AI products, and revenue-generating digital businesses.

Marketing Lead – Thau Arae

Directed branding initiatives, digital campaigns, audience growth, and customer acquisition strategies.

EDUCATION

- Web Development & Graphic Design – Nawab College
- Digital Marketing – Nawab College
- FSc Pre-Engineering – Kohat

KEY STRENGTHS

- End-to-End Product Development
- SaaS Architecture & System Design
- AI-Assisted Engineering & Automation
- API Integration & Workflow Optimization
- Fast Execution & Problem Solving
- Production-Level Development Experience
- Business-Oriented Technology Solutions

CAREER OBJECTIVE

To build globally competitive SaaS products, AI-driven platforms, and innovative software solutions that solve real-world problems, create sustainable business value, and deliver measurable impact on a global scale.
